Sir:

This request is made in response to the Decision under 37 C.F.R. 1.182 mailed to Applicants June 8, 2001. The Decision stated that Applicant's request for a corrected filing receipt for the above identified patent application was denied. Applicants request reconsideration, or in the alternative petition for revival of the application.

On January 14, 2000 a Transmittal Letter (Form PTO-1390) was submitted for entry in the national stage of the United States of the above identified patent application. The inventors, title, filing date and priority document were all correctly identified in the Declaration that accompanied the Transmittal (copy attached). However a clerical mistake misidentified the international application number as PCT/US98/02115, rather than PCT/GB98/02115.

On the basis of this transmittal, a U.S. serial number was assigned to the application, and Applicants subsequently provided on April 10, 2000 an executed Declaration correcting the clerical error on the PCT serial number (copy attached), and thereafter received a notice of Acceptance of the Application on April 26, 2001.

 02 FC:140 110.00 CH

The clerical error in the original transmittal was noted by Applicants, and a request was made to correct the error on May 25, 2000, which continuing data was corrected in a filing receipt received by Applicants on May 16, 2000.

Applicants respectfully submit that the International Transmittal was sufficient to correctly identify the application, as was evidenced by the Acceptance of the Application and the Correction of the filing Receipt. The Application should not have been considered abandoned, as stated by the Decision. Reconsideration is requested.

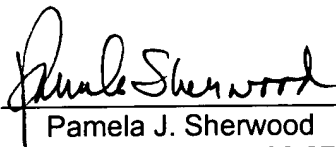

In the event that the application is not reinstated, applicants petition for revival of the application under 37 C.F.R. 1.137(a) or in the alternative 1.137(b).

- The Commissioner is hereby authorized to charge any fees under 37 CFR § 1.137 (a) or (b) or any other fees associated with the filing of this paper to Deposit Account No. 50-0815 .
- A corrected Transmittal Letter (Form PTO -1390) is enclosed herewith.
- Since this patent application was filed on or after June 8, 1995, no terminal disclaimer is required.
- An adequate showing of the cause of the delay, and that the entire delay in filing the required reply from the due date of the reply until the filing of a grantable petition under 37 CFR§1.137(a) was unavoidable, is explained as described above. Applicants believe that all proper paperwork was filed and that the minor clerical error was immediately addressed upon its discovery by Applicants.
- Applicant state that the entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR§1.137(b) was unintentional.

The Commissioner is respectfully requested to grant this Petition to Revive an Application under **37 CFR § 1.137(a)(b)**.

Respectfully submitted,
BOZICEVIC, FIELD & FRANCIS LLP
